- Loss per share SEK -0.08 (-0.08)

### IMPORTANT EVENTS DURING THE PERIOD

- February 5<sup>th</sup>, 2021, the Company announces that it has decided to exercise the right to convert the loan of SEK 7.5 million that the Company raised in November 2020 from the Vidarstiftelsen foundation. This is in accordance with the loan agreement as signed in May 2020. The conversion takes place through a directed set-off issue to Vidarstiftelsen, where payment for the shares is made by issuing new Peptonic shares. The subscription price in the offset issue shall correspond to 85 percent of the volume-weighted average price of Peptonic's share on the Spotlight Stock Market during the ten trading days immediately preceding the request for conversion, ie a discount of 15 percent. The loan agreement was signed in connection with Peptonic's acquisition of the majority of the shares in Lune Group Oy Ltd in May 2020. In connection with this transaction, a directed share issue of SEK 7.5 million was made to Vidarstiftelsen at a share price corresponding to 115% of the volume-weighted average price of Peptonic's share of Spotlight Stock Market during the ten trading days immediately before the issue. The Board believes that a conversion is now beneficial for the company as additional interest costs can be avoided and the money can be used for investments to further develop the company. The conversion of the loan means that the number of shares in Peptonic increases by 5,454,942 to 191,639,642 (including newly issued, but not yet registered shares from the rights issue in December 2020) and that Vidarstiftelsen's share of the shares in Peptonic increases by 2.85% to 13.86%.
- February 23<sup>th</sup>, 2021, the Company announced the appointment of Mikael Svensson, a strategic and operational leader, to the position of General Manager USA. Mr. Svensson holds a proven track record of successful business and operational leadership roles in North America and globally. He joins Peptonic from Good Science Beauty where he served as Chief Operations Officer.
- March 31<sup>st</sup>, 2021, the Company announced the launch of a in-house developed intimate wash VagiVital V cleanser which is both gentle and moisturizing. The cleanser is a unique combination of VagiVital's carefully researched vaginal gel (for the treatment of dry mucous membranes in the vagina) and mild Swedish rapeseed oil. It is emollient, pH-balancing and completely free of soaps, perfume and parabens. VagiVital V cleanser is suitable for women of all ages and can be combined with VagiVital Active Gel for good intimate health.
  - We are proud to launch another product that promotes female intimate health. Our V cleanser is an excellent complement to VagiVital Aktivgel, which has a clinically proven effect against dry mucous membranes. VagiVital V cleanser provides gentle cleansing of sensitive intimate areas, says Johan Inborr, CEO of Peptonic Medical, the company behind VagiVital.
- April 14th, 2021, the Board of Directors of Peptonic Medical (publ) announce that Erik Sundquist is appointed as new CEO after Johan Inborr. As of today Erik Sundquist will take on the role as CEO of Peptonic Medical AB. Erik has a well documented history of successes in leading roles in the internationally MedTech Industry, amongst other as head of Q-Med in Asia Pacific within women's health. Erik has worked as a consultant in Peptonic since 2017 and is now appointed CEO to pace up the company business and sales development globally.
- May 17<sup>th</sup>, 2021, the Company announced it has signed a distributor agreement with Revisage concerning sales and distribution of VagiVital® AktivGel in Poland. Revisage is granted the exclusive rights to market and sell VagiVital® AktivGel to medical and aesthetic clinics in Poland. We are very pleased to have entered into this agreement with Revisage. It gives us an excellent opportunity to assess the reception of VagiVital® in a channel where treatments of vaginal medical conditions are growing fast. We still view the pharmacy channel as the biggest potential for the VagiVital® range and we aim to get there in Poland as well. However, we believe that this is an exciting new way of opening a new market and we are looking forward to a mutually beneficial cooperation with Revisage, says Erik Sundquist, CEO of Peptonic Medical.
- May 17<sup>th</sup>, 2021, the Company announced that Kronans Apotek launches VagiVital® Moisturizing V Cleanser in 236 of its physical stores in Sweden. Kronans Apotek has decided to take up Peptonics new VagiVital® Moisturizing V Cleanser in its physical stores assortment. The product will be launched in 236 of Kronans shops in a nation-wide campaign that starts May 19. The launch is a part of Kronans Apoteks increased focus on intimate care where VagiVital® is a prioritized brand.
- May 26<sup>th</sup>, 2021, the Company announced that two new products will be added under Lunette® brand. Lunette, the female, founder-led brand, created revolutionary Period Care over 15 years ago with its original, special Finnish design menstrual cups, now available in over 50 countries through its retail network. This summer, Lunette expands to more holistic, innovative Intimate Care with two exciting new products, both featuring Nordic plant-based ingredients. The products will be made available during the summer.
- June 29th, 2021, the Company informed that the latest clinical study with VagiVital® has been published. The objective of the study was to investigate whether, and to what extent, VagiVital® can relieve symptoms associated with vaginal atrophy in women taking aromatase inhibitors (antiestrogens) as part of their cancer treatment. The study shows that VagiVital® offers strong relief of the most bothersome symptoms such as vaginal dryness, vaginal itching and pain during sexual intercourse (dyspareunia). In addition, vaginal pH decreased as a result of treatment with VagiVital®. All improvements were statistically significant (p<0.001) and the magnitude of the improvements were at least on the same level as seen in previous clinical studies with VagiVital®. To read the

### IMPORTANT EVENTS AFTER THE END OF THE PERIOD

- July 15<sup>th</sup>, 2021, the Company announced that the Company has received approval from the Swedish Medical Products Agency as well as the Ethics Committee to start a clinical study to evaluate treatment of patients with recurrence of fungal infections. The study will be carried out at Karolinska University Hospital Huddinge with Associate Professor / Gynecologist Aino Finanu Jonasson as principal investigator. The study is expected to start by the end of August 2021. The product used in the study is an indication-adapted version of the CE-marked gel VagiVital® AktivGel for vaginal atrophy. The rationale behind the application is positive results from in vitro studies showing an effective antifungal effect.
- August 13th, 2021, the Company informed that the distribution agreement with Yuanjia Biotechnology Co., Ltd. concerning VagiVital® AktivGel for the Chinese market has been terminated. The reason for the termination is a payment default where Yuanjia Biotechnology Co., Ltd. has failed to pay Peptonic Medical a total of EUR 406'. Half of the value for an order in November 2020 and subsequent shipment to China and the other half for an order in February 2021 where the goods is still in Finland. As a consequence, q2 results will be negatively affected by SEK -1.4M.

### From the CEO

The second quarter has been a tough quarter with rather high expenses and not as high sales, but there has also been positive development worth noting and parts of the costs have been extraordinary for the period.

The extraordinary and increased costs, which are seen as future investments, are primarily in infrastructure improvements to accelerate digital business even faster, consulting, new websites, improved SEO (search engine optimization) and marketing creative. Furthermore, there are continued preparations for the launch of VagiVital in the USA, legal advice and marketing costs. The result for the quarter is negatively charged with SEK -1.4 million as a result of the recently announced termination of Yuanjia Biotechnology Co., Ltd. for the Chinese market. The cost base includes restructuring costs corresponding to SEK -0.5 million.

We had expected the sales development to be more favorable, but signing agreements with international distributors has taken longer than planned, partly due to Covid 19.

There is also important positive development that has taken place during the quarter. The rapid sales development of VagiVital in its own online stores has accelerated further, the annual rate in the first half of 2021 compared with 2020 corresponds to a sales increase of + 103%, which we see as a positive effect of our digital strategy. This is still from relatively low figures. During the period, Lunette had its first quarter with growth compared with the corresponding period last year since Q2 2019, + 11%. The goal of showing sales growth for the Lunette business area for the full year 2021 remains.

During the period, VagiVital Moisturizing V Cleanser was added to the range in its own online store in Sweden, in 236 of Kronan's pharmacy's physical stores and Kronan's online store. The fact that the product in these channels already constitutes approximately 15% of the VagiVital brand's total sales reflects the importance and value of portfolio broadening under the brand.

The domestic markets Sweden and Finland continue to develop positively, which is valuable for reference creation and a confirmation that market and channel strategies work.

Preparations for the launch of VagiVital in the US are still ongoing. It is the company's intention to launch VagiVital in its own online store and take advantage of the lessons learned in other markets as well as find channel-specific distribution partners and listing in selected retailers. As Lunette menstrual cups are a rare purchase product, it is very important that the portfolio and offer is broadened with consumer products. During the current quarter, an intimate cleaning is launched under the Lunette brand as well as intimate wet wipes that moisturize and clean. Continued portfolio development is taking place.

An expanded product portfolio is also important to increase the attractiveness of Peptonic's offering at international distributors. The work with portfolio broadening is a combination of in-house development and in-licensing.

In addition to portfolio broadening, work is being done to better clarify the positive development in the company's home markets, also as part of better attracting potential international partners.

A cost saving program has been initiated in the company. The intention is to reduce costs and at the same time improve output in the organization through an improved organizational structure. The savings do not apply to the investment in the USA, which is given high priority.

A number of companies have shown strong interest in distributing VagiVital in China. Discussions are ongoing and we will evaluate these opportunities in the near future and then decide on the next step.

For the sake of order, the company would like to inform that the preliminary investigation initiated by the Swedish Environmental Crime Agency regarding serious insider crime is still ongoing. The company and its representatives also intend to continue to cooperate with the authority in the matter.

Bromma, August 18th, 2021

Erik Sundquist, VD

### **COMPANY BRIEF**

Peptonic Medical AB (publ) is an innovative biomedical company that conducts research on and development of drugs and medical devices in the field of women's health. Our vision is to offer safe and effective treatments for women-specific diseases and medical conditions. Peptonic Medical launched VagiVital® in July 2018. This is a hormone-free product for the treatment of vaginal atrophy and vaginal dryness. See <a href="https://www.vagivital.com">www.vagivital.com</a>

Since August 2020, Lune Group Oy Ltd. is a wholly owned subsidiary of the Peptonic Medical. Lune Group Oy Ltd. is a company founded by Heli Kurjanen in 2005. The company's business concept is to lead a menstrual revolution in a positive spirit. By focusing on sustainable development, environmental issues and the promotion of sexual health, the company has developed to take the lead for the menopausal companies. Lunette® menstrual cups are an alternative to disposable menstrual protection and last for several years. The company has resellers in 50 countries and sells Lunette products to over 100 countries via its web shop. Lune Group has in the USA the subsidiary Lune North America Inc. Lunette® menstrual cups are designed, manufactured and packaged in Finland. For more information about Lunette®, visit www.lunette.com.

The company was founded in 2009 and the share has been traded since 2014 on Spotlight (<a href="https://www.spotlightstockmarket.com">www.spotlightstockmarket.com</a>, short code: PMED in Stockholm.

### **FINANCIAL INFORMATION**
