### Word from our CEO

It is with great joy we can report that the positive development of the core business, clinically proven intimate self-care products, continues in to 2023 with strong sales growth, new partner agreements and continuous very positive development in the home market Sweden. The development in our business unit Lifestyle Consumer, which mainly focuses on sustainable period products, remains challenging. Our focus in this business area is primarily to reduce costs, improve bottom line and gradually turn the sales around with a focus on selected markets. It is therefore encouraging that earnings improved in the first quarter. The efforts to turn the sales around continues.

In January, we signed an exclusive distributor agreement for Central America with Windsor Pharmaceutical, headquartered in Panama, concerning our self-tests for vaginal infections and amniotic leakage. The products will be sold under Windsor Pharmaceuticals' own brand Amniotest. We are very pleased to have landed this agreement with Windsor Pharmaceutical, which has a specific focus on women's health in Central America.

After the period, we signed an equally significant agreement with the listed German medical device company Siemens Healthineers for the distribution and marketing of our patented test for vaginal infections. This agreement is attractive in many aspects. With a partner with a turnover of €21.7 billion last year, we will have a very strong force behind educating users concerning the benefits of our unique and patented technology, raising awareness, and driving sales. It is a quality mark that Siemens Healthineers add our novel technology around vaginal infections to its portfolio.

During the Covid pandemic, we saw a growing trend among people to take greater responsibility for their own health with self-care products and at the same time relieve healthcare systems worldwide. It is important then that these self-care solutions are clinically proven. As a result, in 2022, we formed the Medical Consumer business unit with a focus to offer consumers innovative and clinically proven self-care solutions. I am happy to see how this trend is developing in a very positive direction.

Within Medical Consumer, Sweden constitutes an important reference market. The rapid growth in 2022 compared to the previous year continues and during Q1 2023 we recorded an all-time high in Sweden for an individual quarter. After the end of the period, we also announced that the leading product VagiVital AktivGel will be available at approximately 300 of Apotek Hjärtat's 400 physical stores. We expect continued rapid growth for the VagiVital range in Sweden in 2023.

Medical Consumer is since 2022 Peptonics' core focus and accounted for 70% of sales in Q1 2023, corresponding to a growth of almost 60% compared to the same period in 2022. The focus of

Lifestyle Consumer is, as mentioned above, to improve its bottom line. Compared to the same period in 2022, the result in Lifestyle Consumer improved with 53%, while sales dropped 52%.

Thanks to a successful rights issue during the first quarter 2023, we have gained a solid financial position and a strong ownership structure, where the two largest owners together control roughly 30% of the capital and votes in the company, divided between Maida Vale with 15.7% and Vidarstiftelsen with 14.6%. Our new strong and long-term owner base contributes, apart from the financing, with competence and a global network in the areas where we operate. I view this very positively. It provides a completely different opportunity for our future expansion by enabling accelerated growth with new products, strengthening our organization and distribution network, and reaching out to new geographies.

With a firm financial position and a continued positive development going forward of our very focused commercial plan and exciting business relations globally, I look forward to updating you on upcoming milestones.

Erik Sundquist

**Revenue** – Sales of goods during the first quarter amounted to SEK 8,874 (8,908) thousand. Which is just below compared to the same quarter last year. The sales have not increased compared to the corresponding period last year is explained by the fact that the LifeStyle Consumer business area has declined due to increased competition and thus a lower return on investment regarding marketing skills that have been reduced as a result.
